

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. REPORT.

To the Honorable, the Legislature of the State of New York:

The Forty-sixth Annual Report on the condition of the State Library, is herewith respectfully submitted by the Trustees :

The additions to the library by purchase during the past year have been less in proportion to the whole sum expended than in the preceding year by more than three hundred volumes. This has been caused by the largely advanced prices of books; and it is probable that the additions of the present year will be even more seriously diminished, particularly in foreign books, the purchases of which beyond pressing necessities, have been almost entirely suspended.

Many valuable contributions have been made by the friends of the library, all of which will appear in the appended list of donations. Among these the Trustees mention specially a valuable collection of works, chiefly scientific and foreign, of two hundred and two volumes, from James Lenox, Esq.

The system of foreign and domestic exchanges has placed in the library many valuable works, one hundred and four foreign maps, five atlases, and more than three thousand pamphlets. A set of the large county maps of the State, with the exception of those of four counties, has been purchased.

At the close of the year 1862, as stated in their last report, the whole number of volumes in the library was..... 63,104

In the law department..... 17,870

In the general library 45,234

At the close of the year 1863, the whole number of volumes in the library had been increased to..... 66,301

By addition to the law department of 561

do do general library of..... 2,636

Total 3,197

Of these additions there were by purchase.....	1,935
By donation and exchange	1,262
	<hr/>
Total	3,197
	<hr/> <hr/>

At the last session of the Legislature \$750 was appropriated "for the purchase by the trustees of the library, of the manuscripts and correspondence of Sir William Johnson and others, to be deposited and preserved in the State Library." This collection did not prove as full as was expected, and only \$500 was paid for it. It however forms a very valuable complement to the "Johnson Papers," previously in the library, and when the index to the whole, now in the course of preparation under a resolution of the Legislature, shall be completed, these papers, of high value in connection with the early history of the State, will be rendered easily accessible.

The contributions of British Patents, made by the Great Seal Patent Office of Great Britain, have been continued, and are conveniently deposited in suitable cases.

The supplemental catalogue of the law department, which was stated in the report of last year to be in the course of preparation, has been completed to the end of the year 1863, and is now in the press.

The portraits of President Van Buren, Governor Seymour, Governor Morgan, Thurlow Weed, Edwin Croswell and Dr. Wendell, former Chancellor of the University, have been added by donation to the portrait gallery of the library.

Respectfully submitted, by order of the Trustees.

JOHN V. L. PRUYN,

Chancellor of the University.

ALBANY, *March 24, 1864.*

The Secretary of the Regents of the University, *ex officio*
 Treasurer of the Library fund, in account current for
 the year ending September 30, 1863.
